NEW CANADIAN NATIONAL SALES MANAGER ANNOUNCED!

Exeter, ON – May 27, 2014 – **Inteq Distributors, LLC** is pleased to announce that Mr. Pete Overholt has been promoted to the position of Canadian National Sales Manager. He assumed the duties of this new position effective May 1, 2014.

Mr. Overholt has been a sales specialist at Inteq for over 6-years and brings a total of over 22-years of industry experience to the position. “As we prepare Inteq for growth, Mr. Overholt’s experience, drive, work ethic, as well as his care for the customer make him the right person for the position,” said Mr. Tom Brennan, North American Distribution Manager. “We needed someone with his drive and leadership to take our business to higher levels.”

Inteq recently announced the merger of Inteq with Futura Tools and Technology out of Oklahoma City, OK, USA. The merger created a leading North American Distribution Company of Construction Lasers, Optical Survey Instruments and Machine Control Systems, differentiated by its ability to deliver ground-breaking products while leveraging international operating efficiencies and economies of scale. The merger was effective May 1, 2014.

The combined company operates under the Inteq Distributors name, and is the exclusive North American distribution partner for all Futura products. In addition to the Futura line, Inteq Distributors carries a wide selection of products and supplies from Topcon, PLS, Keson, CST/Berger, Bosche, SmartTool and Seco.

Inteq currently has offices and distribution facilities in Oklahoma City, Oklahoma, USA and Exeter, Ontario, Canada.

ABOUT INTEQ DISTRIBUTORS

Since 1999, Inteq Distributors has been dedicated to providing quality products and services to Construction Supply and Survey Houses throughout North America. Today, Inteq stands as an established distributor for premier instrument and equipment manufacturers. We strive to offer exceptional customer service and are committed to meeting our customer's need for quality products delivered at a profit generating cost. Dealers will find a wide selection of Construction Lasers and Receivers, Optical Instruments, Auto Levels, Transits, Total Stations and Data Collectors, Hand-Held Lasers, Locators, Surveying Accessories and Supplies and Machine Control Systems. Inteq's product portfolio consists of high quality products from manufacturers such as Topcon, PLS, Keson, CST/Berger, Bosch, SmartTool, and Seco. And, we are the exclusive North American distribution partner for Futtura, a high quality brand of laser and optical survey equipment. A core value of ours is to do more than is expected. We actually mean what we say and will do what we say. When you call us you will talk to a real person who will do everything possible to take care of your situation. We continue to position our company to take advantage of industry opportunities to help our dealers grow their businesses. We currently have offices and distribution facilities in Exeter, Ontario, Canada and Oklahoma City, Oklahoma, USA to meet our customer's needs.
